Jorge Casalins - Chairman	Class IV	P	7:04 PM

SALUTE TO THE FLAG

At 7:05 pm Chairman Casalins led those in attendance in reciting the Pledge of Allegiance.

NEW BUSINESS

Chairman Casalins discussed the expectations of the commissioners regarding attendance by having Board Attorney Steven Tombalakian read the bylaws regarding attendance. He explained the board has a policy enacted that if a board member misses 8 consecutive meetings without reasoning, the board members in question would vacate their seat.

Chairman Casalins recommended that the two seats of, Roxannae Briano and Maurice Negron, be vacated due to a lack of attendance, and a request to appoint two additional board members be made to the Mayor.

Vice Chairman Harms moved to approve the recommendation; seconded by Councilman Robaina.

At 7:09 pm, Chairman Casalins invited CME representative Maryann Bucci Cater to present the redevelopment study entitled, Non- Condemnation Area in Need of Redevelopment Study Block 606 Lots 25, 26, 27, 28, 29, 31, 32, 36.01, and 38.

Maryann began by giving a general summary on what redevelopment studies are, and why they happen, saying they're done to encourage improvement and change. She explained this was initiated by City Council, which had a public hearing to decide if the requested area met the criteria set by the state. Maryann explains the contents of the redevelopment study and what was done. She explains that some of the properties within the redevelopment study are aging and no longer meet the DOT standards or have any drainage system. She explains that the Board is to look at the report, see if it meets the criteria for a need to redevelop the arena and then give a recommendation to the governing body. She explained that in the back of the report are photographs that show what needs to be addressed, and what criterias are being met. Chairman Casalins asked if there were any future plans on what would be done in the area, in which Councilman Robaina answered there were no plans as of now.

At 7:24 pm, Chairman Casalins opens the matter to the public, seeing none he closes the public portion of the matter.

Vice Chairman Harms motioned to recommend the redevelopment study to the governing body; seconded by Kevin Kolbeck

CONTINUING BUSINESS

BOROUGH OF ROSELLE PARK
JULY 17, 2023 – REGULAR MEETING OF MUNICIPAL LAND USE BOARD

- Applicant: Meridia at Park Square, Urban Renewal, LLC
 - Application # 2023-004
 - 10 West Westfield Avenue, Block 610, Lot 1 & 3
 - *Amended Preliminary and Final Major Site Plan for proposed mixed use development at Meridia at Park Square. The applicant wishes to amend the previously approved mixed-use development proposing 650 spaces within the surface parking lot and garages compared to the previously allotted 505 parking spaces.*

At 7:26 pm, Chairman Casalins invited the applicant's attorney, Jason Tuval, Esq. to the stand. He explained that at the previous meeting, the Board requested 3 renderings from different vantage points, which he has with him today. The 3 renderings provided were entered as Exhibit A-3. Architect Thomas Basile explained the 3 vantage points offered in the renderings, with the last one showing the emergency egress.

Councilman Robaina asked if the brick of the garage will match the brick of the building, in which Mr. Basile answered that the bricks will match. Vice Chairman Harms asked about photo number 3, in which Mr. Basile explained it is for emergency access only. Vice Chairman Harms explained the photos could have gone further, to show an accurate perspective of the garage to its surrounding area.

Mr. Tuval brought up the applicant's planner, Kathryn Gregory, who was sworn in and had her credentials accepted at 7:36 pm. Mrs. Gregory explained how the proposed development was in accordance with the redevelopment plan. She explains how relief for a parking variance could be granted within the redevelopment plan as it would cause no substantial negative effect and the applicant meets the criteria, especially with the submission of their parking analysis. She goes on to explain the relief of requested variances would improve the initial application and promotes mixed use buildings which is a main goal in the redevelopment plan.

Paul Baimonte asks if a restaurant is not put in the commercial but another type of store, would that require different parking, in which he was answered that any other type of commercial space would require less demand and requirement for parking. Mr. Tuval assured the Board that a restaurant is still the applicant's goal.

Board Planner, Ronald Reinertsen, asked about the facade on the slope of the rail and on the other side of the garage on Locust Ave. Mr. Basile explained there was precast and brick, but not on the Locust Ave side. Mr. Tuval did a walk through of the where brick would be on the parking garage, which the commissioned would like to be duplicated on the Locust Avenue side.

Vice Chairman Harms asked about fencing in a section of the garage, in which Mr. Tuval explained they can put a screen on the first floor to deter pedestrian traffic in the parking garage but still offer ventilation.

Councilman Robaina asked how many elevators there will be, in which he was answered that there is only one. [Paul Baimonte](#) asked if there was anyway to lighten up the garage and make it more aesthetically pleasing as this is a massive 8 story building that will be seen from afar. He also expressed concern over the effect large thunderstorms can have over the surrounding area, in which Mr. Tuval explained they will

work with the Board’s engineer and building department to make sure everything is up to code and can handle powerful storms.

The commissioners and board professionals discussed options to make the tower of the garage more aesthetically attractive. Chairman Casalins recommended making a condition of approval in which a committee with two board representatives, and the applicant’s professionals work into creating a new design for the parking garage including some of the suggestions given by the Board. Councilman Robaina expressed he believes there should be two elevators, in which the applicant's professional explained that the first floor is for municipal and business parking. Those using the elevators will mainly be those who reside at the building and still it won’t be used as much, as those who live on the third floor would park on the third floor. Before Chairman Casalins opened the floor to the public he explained that he would like for the applicant to rethink the facade as a whole, not just the tower.

Chairman Casalins opened the floor to the public. Paula Mago of 433 Maple Street came up to ask if there’s only one elevator for the whole apartment, in which she was answered that no, there are multiple elevators throughout the entire apartment building. With no other public coming forward, Chairman Casalins closed the public portion of this matter.

Vice Chairman Harms moved to approve the application with the additional conditions; seconded by Nicola Cristofaro.
